Stockholm

EXPERIENCE

Ux/UI designer
Dr Hud International

2023 - Present

I assist in managing their medical platform, overseeing various projects encompassing both research and UI development

Teacher Assistant
Chas Academy

2022 - Present

Tutor in frontend development and UX for four classes. Helping students with their projects and correcting their tests and projects. Also, providing additional lessons and workshops for them.

Frontend developer
Rule Communication

2021 - 2022

Built user interface in React from the test environment in Postman. This allows clients to test the integration without needing to know programming.
